

ACADEMIC SUBJECT INTENSIVES

Our Educational Specialists offer subject-focused support in both individual and group sessions.

Subjects

Kindergarten Readiness (for Pre-K and T-K students)

- Instruction builds pre-academic skills in reading, writing and math, as well as listening.

Math: (for Grades 1-5)

- Instruction is based on a multi-sensory approach to learning grade-level specific math skills that align with the Common Core standards.

Basic Reading: (for Grades 1-5)

- Instruction focuses on stimulating and strengthening the underlying processing areas of phonological awareness and memory in order to improve sound awareness, word decoding, spelling, word recognition and reading fluency.

Writing: (for Grades 1-5)

- Instruction focuses on helping students organize their thinking while executing a written piece. By creating an awareness of the various types of writing, as well as opportunities to plan and interact with various topics. Students will learn strategies for improving their overall written expression skills.

Reading Comprehension: (for Grades 1-5)

- Instruction focuses on using grade-level appropriate text to improve higher-order thinking skills so students can share main ideas, infer, predict and summarize written and verbal information.

Executive Functioning Skills (Elementary): (for Grades 3-5)

- Using research based practices, students will engage in interactive and fun activities that teach and promote age appropriate executive functioning skills. By creating an awareness of executive skills across various settings and providing opportunities to practice those skills, students will learn strategies to support life-long learning.

Executive Functioning Skills (Middle School/High School): (for Grades 6-12)

- Students will be supported and encouraged as they learn strategies for strengthening their executive functioning skills. Using research based practices and interactive lessons, middle and high school students will reflect on their personal learning styles and learn to apply various strategies in a meaningful way.
