## Alternative Funding Sources

Therapy is an investment in your child's future. We recognize that not everyone has access to insurance benefits and those that do are often left with some out of pocket cost. There are a number of organizations that may provide funding for children with disabilities. They cover a wide array of funding purposes such as therapy or equipment. These organizations have certain grant/funding criteria so please be sure to check their websites for funding details.

Please note that each grant resource is from an independent organization; none are associated with Child & Family Development. C&FD has conducted independent research to assist families with alternate funding needs. While we have made every effort to provide high-quality and helpful grant information, we are not responsible or liable for the quality of the grant sources or any errors that may occur. Information should be independently verified and confirmed. Questions about specific grants should be addressed to the organization offering the grant.
